

COVID-19 Resource Center

The current COVID-19 pandemic is rapidly evolving as are requirements, recommendations, and guidance set forth by the Centers for Disease Control (CDC), the World Health Organization (WHO), and other governmental authorities. The recommendations, guidance and directives of such organizations and authorities have wide ranging implications and direct impacts on companies worldwide.

To help clients navigate the emerging regulatory environment and operational challenges, Winstead has assembled a COVID-19 Response Team and Resource Center.

Our Response Team stands ready to quickly assist clients navigating the myriad of issues arising from the COVID-19 crisis, leveraging the experience of our various practice and industry groups. In addition, the Response Team has compiled a catalog of resources including news alerts, blog posts, recorded webinars, issues for consideration, and key attorney contacts.
