

COVID-19 Emergency Update: Physicians Can Prescribe Controlled Substances via Telemedicine

03.26.20

Under the Ryan Haight Act, healthcare providers must usually conduct an in-person examination before prescribing controlled substances, such as opioids, via the internet (including telehealth or telemedicine). However, as a result of the Public Health Emergency Declaration, the U.S. Drug Enforcement Agency (DEA) issued a statement clarifying that—for the duration of the Public Health Emergency—DEA-registered practitioners utilizing telehealth...
